## ROAD REPORT

---

The Selectmen appointed to their Road Advisory Committee, Donald Byam, John Connelly and Logan Dickie. The 1952 Road Committee was composed of the Selectmen and this group.

Because of difficulties previously encountered in snow plowing work and during the wet season of the year the committee decided to concentrate the bulk of its attention, so far as permanent improvements were concerned, to drainage and to widening, straightening and regrading those sections of roads giving the most trouble because of these defects.

Although the Selectmen and the Road Agent made a real effort to reduce the difficulties caused by road corrugations we realize that many of roads remained in an unsatisfactory condition during the summer. Under the exceedingly dry conditions which prevailed it is doubtful if more scrapings would have made any lasting difference. As the road program progresses more of our roads will be covered with a workable gravel, rather than the extremely rocky gravel used in the past. This should help eliminate to some extent this condition of corrugation. However, until all of us using our gravel roads realize that they were not made for high speed of travel and therefore keep our speed down to under 20 miles per hour, we will always be plagued by the expense and annoyance of corrugation on roads not hardsurfaced.

During the so called mud season sections of roads breaking through were gravelled just as rapidly as was possible. Expended on this work was \$1,063.50. To improve driving conditions in the early season, before the road machine could operate because of the mud, extra road drags were constructed and the roads dragged. From reports received at that time we believe that this operation should be continued each year.

A survey was made during the so-called mud season and the sections of roads showing need for gravel were located and later marked. When the major job of gravelling was done later in the season the gravel was

applied between these markers. We limited the gravel-lin operations this year to these areas, believing that the roads needed a real job of drainage first. Consequently we installed or repaired 26 culverts in an effort to get the water off our roads this year. In 1953 we feel that a more extensive job of gravelling should be done. The gravel that was applied was hauled from nearby pits to save hauling costs.

The Parker Station road was hardsurfaced in 1951. During the following winter it broke-up quite badly. This was caused by the lateness of the asphalt application by the State. The town finished its part of the job in ample time. The State could not get its machinery to the job till late in the season. The application was made during the cold and wet season. Attempts were made to have the State repair the break-up at their own expense, but were unsuccessful.

We are greatly encouraged with the results of the first year of the road program's operation. We are of the opinion that substantial sums were saved because of a planned effort. A considerable "bite" was taken out of the Road Program, more than we anticipated could be taken at the first of the year, we feel sure that if similar type of operation is continued the schedule set up and accepted by the town in the 1952 meeting will be completed in less time than estimated at that time.

Through an arrangement made with the Highway Commissioner's office we were able to start our Town Road Aid projects two months earlier than was possible for the preceding two years. By spreading the work we feel that substantial savings were made and a much better job performed. We hope, through legislation, to be able to make similar arrangements in 1953.

In order that you may have information as to permanent improvement work accomplished during 1952 we list the projects below.

#### Road

- 62 Lower Meeting House (as planned).
- 62 Brown's Corner—corners widened—Gagnon's hill (as planned).
- 63 Back Meeting House—partly widened as planned to get fill for pond.

- 64 Brown's to and including ledge beyond Byzan-  
son's (as planned).
  - 67 From Dane's to Houghton's and from Kirsch to  
Francestown line widened, drained and gravelled  
as planned.
  - 80-102-103 Widened Post Hill to foot of H. Wilson's  
hill using fill for 102 and 103 as planned.
  - 91 From Blake's corner to LaCroix—drained, re-  
graded, widened and gravelled.
  - 96 Goodwin's Mill (as planned).
  - 102 Shaw's—70 to 62 (as planned).
  - 67 Lebarron's (as planned).
  - 73 From Buxton's old house to bridge (as planned).
  - 62 From Mansfield's to ledges above Lewis'—wid-  
ened, drained, straightened, gravelled.
  - 72 Woodbury's to Hadley Mill — hill widened,  
straightened, graveled.
- Twenty-six culverts were installed or repaired.  
Heath bridge and road were completed.  
Follansbee's bridge was repaired.

A new road machine was purchased; two snow plaws were purchased and attached to trucks, drags were constructed.

Subject to approval by the town meeting the following projects are to be worked upon during the 1953 season:

The following are the projects contemplated for the 1953 program, upon which the total Town Road Aid will be expended—\$1,263.95 from town tax levy and \$8,426.35 from the state fund, total \$9,690.30.

Road No. 63. Finish as planned in 1953 recommendations.

Road No. 70. Continue from road 63 to 2nd Cemetery gate, regrading, draining, gravelling—making a 60 ft. 4 corner in upper Meeting House square. This would call for black-topping upper section of Back Meeting House (63) thru the 4 corner to the 2nd gate of the Cemetery on Road No. 70. Road No. 62 would be black-topped thru the 4 corners as would a section of Road No. 64.

Road No. 64. From Baker's corner Black Snake as planned in 1953 recommendations.

Road No. 67. On two hills by Berry's place and by McGill's place—as planned in 1953 recommendations.

Road No. 69. By Frank Wilson's—as planned in the 1953 recommendations.

Road No. 81. Finishing the upper part of this section, from point where new road paid for by Heath stops to top of hill—putting in culvert near top of hill.

Road No. 67. At Welch Hill and at Faille's hill as planned in 1953 recommendations.

Road Nos. 62 and 65. Regrade, cut corner, and drain at junction of 62 and 65 opposite old school house.

## FINANCE COMMITTEE

### REPORT OF COMMITTEE APPOINTED TO STUDY ADVISABILITY OF ADOPTING A BUDGET AND A PLANNING COMMITTEE

Acting on the following motions adopted by the 1952 town meeting we deliver our report to the 1953 town meeting and also to the 1953 School District meeting. Substituted for Article 23 was the motion "that the Moderator appoint a committee of three for the purpose of making a study of the advisability of adopting a Budget Committee plan for the town and to bring in report and recommendations at the next annual town meeting." Substituted for Article 24 was the motion "and substitute a study committee which will consist of the same members as will be appointed under motion made under Article 23." The Article 24 referred to called for the creation of a Planning Board.

The Moderator appointed to this committee Logan Dickie, William Mason and Fletcher Wasson. Due to illness Mr. Wasson resigned and his place was filled by Fred Cann, upon the request of the remaining members.

Information was obtained from: The Tax Commissioner's office, the Municipal Accounting Department, Judge Spring of Nashua, a former member of the Tax Commission and the author of the Municipal Budget Act, the Selectmen of the towns of Francistown, Exeter and Greenland.

The New Hampshire statutes provide that towns may adopt either the Municipal Budget Act, (which sets up a Budget Committee and by statute provides their rules and regulations) or they may create their *own* Advisory Finance Committee, (which is regulated by the rules and regulations decided upon by the annual town meetings).

The Municipal Budget Act must be accepted in toto by those towns desiring to come under its provisions. Its outstanding provision is, "the total amount appropriated at any annual meeting shall not exceed by more

than 10 per cent the total amount specified in the budget of said meeting, and no appropriation shall be made for any purpose not included in said budget, provided, however, that the Budget Committee may also submit, without approval, items which they do not wish to recommend but which they believe the voters should be allowed to consider and act upon," (the "budget" here referred to is the one which is submitted to the meetings by the Municipal Budget Committee).

About 60 towns have accepted the Municipal Budget Act since 1935, some have discarded it and many others have found that the Act is quite satisfactory. Among the towns discarding it are Francistown, Greenland, Sharon and Hancock.

Judge Spring, the father of the Act, feels that wherever Municipal Budget Committees are set up under this Act, with the proper personnel and are motivated by proper principles the Act works out excellently. He stated that the Act very definitely reverts "packed" meetings from seriously effecting the appropriations. That he is obviously correct seems to be indicated by the fact that something over 50 towns are now working out under the Act. Many of them, however, are large towns.

Mr. G. Newton Weeks, selectman of the town of Greenland stated that his town, after several years' experience with the Municipal Budget Act, discontinued it after its citizens decided that it placed too much power in the hands of a few and in so doing worked to the disadvantage of the town as a whole.

Mr. Francis Abbott, Selectman of the town of Francetown, stated that after two years under the act the citizens voted to discard it because it has proved to be too, cumbersom and too complicated for a town of their size.

We were informed that the town of Seabrook had a test case on the Act in the courts. The 10 per cent provision had been violated. The court ruled that the town meetings in the state were the ones who decided the amounts of the appropriations—not the courts. (This to us, implied a lack of "teeth" in the law.)

We feel that, regardless of some failures, the Muni-

icipal Budget Act has some considerable merit, especially for the larger towns.

The so-called Advisory Finance Committees are set up by the individual town and school district meetings and operate under rules and regulations approved by such meetings. They act in a purely advisory capacity and do not take away from either the voters or their elected officials any of their rights, nor do they put any restrictions on these rights.

They do, however, have the authority to obtain information from boards, committees or individuals seeking appropriations from the town or school district meetings. They also have the obligation of making recommendations on such appropriations. Their work is done before town meeting day and they report directly to the town meeting members.

The Tax Commissioner's office could not give us the number of towns working under Advisory Committees but stated that they were many. Among them was Exeter. We spent considerable time with the Exeter officials and received much valuable information—together with the statement that their Advisory Budget or Finance Committee had been working very satisfactorily for many years.

In the opinion of members of the Municipal Accounting Department of the Tax Commission's office almost any town could benefit from the operations of a well manned and motivated Budget Committee, either Municipal or Advisory. We concur in that opinion insofar as New Boston is concerned.

However, we have concluded, after much consideration, that the Advisory type of Finance Committee is much better suited to the needs and size of New Boston than would be a committee working under the provisions of the Municipal Budget Act.

Such a committee could provide our town and school district meetings with a clear and overall picture of our financial condition together with the effect of any item in the Warrant upon it. They could analyze the past and look forward into the near future. They could inquire into all aspects of all articles in the Warrant calling for appropriations and could give us the benefit of their *informed* judgment thru their report and recommendations.

We believe that a purely Advisory Committee, properly constituted and operated could provide information of considerable value to the voters and assist them materially, therefore, in making their decisions on expenditures. We recommend that the town adopt and set up an Advisory Finance Committee.

For the purpose of providing a base for action at this annual town meeting we suggest that you consider the rules and regulations outlined below and after discussion and consideration we recommend that you adopt them either "as is" or as amended.

#### RULES AND REGULATIONS TO APPLY TO NEW BOSTON FINANCE COMMITTEE

SECTION 1. If the majority of those present and voting at an annual town meeting and, or, an annual school district meeting vote for adoption, the following rules and regulations shall remain in force until rescinded by a majority vote at a regular town meeting.

The Finance Committee shall consist of three members-at-large: a member from the Board of Selectmen and a member from the School Board. A total of five.

The members-at-large shall elect one of their membership to be the Chairman of the Finance Committee. Decisions shall be made by a majority vote of the members-at-large.

The members-at-large shall be appointed by the Moderator within thirty days after the annual town meeting. One member of the members-at-large shall hold office for one year; one for two years and one for three years and until their successors are appointed and qualified. Vacancies in the member-at-large shall be filled by appointment by the Moderator and such appointments shall be made within five days from the creation of the vacancy, for the unexpired term. The members from the School Board and from the Selectmen shall hold office for one year and until their successors are qualified. These members shall be appointed yearly to the Finance Committee by their respective boards.

SECTION 2. It shall be the duty of the Finance Committee to examine budgets for the town and school

expenditures, and for this purpose to hold public hearings, notice of which shall be given at least five days in advance.

The Finance Committee shall consult the Selectmen, School Board, and other town officers and departments as to the costs of government, revenue anticipated, and services performed, and it shall be the duty of any town or school officer or employee to furnish information required by said Finance Committee, within the time limits set by the Finance Committee.

It shall also be the duty of the Boards of Selectmen and of the School Boards to prepare and submit to the Finance Committee of the town an itemized statement of expected receipts and expenditures for the ensuing year at such time as said Finance Committee shall fix.

It shall also be the duty of any citizen or group of citizens placing articles in the Warrant calling for appropriations to submit to the Finance Committee such requests with accompanying explanations at such time as the Finance Committee shall fix, providing such time limitation be within the provisions of the statutes.

When completed the report of the Finance Committee together with its recommendations shall be printed in the town report or separately distributed at least one week before the town or school meetings. Expense of such printing or distribution shall be included in the Selectmen's annual expenses.

SECTION 3. In case a special meeting shall be called by the Selectmen or by the School Board, the Finance Committee shall hold a meeting promptly after the posting of the Warrant, shall consider the proposals looking toward the appropriation of money and shall make a written report of their recommendations, thereon, which report shall be read by the Moderator in open meeting prior to consideration of the proposals.

SECTION 4. Upon request by the Finance Committee the Selectmen or School Board shall worthwith submit to said Finance Committee a statement of all expenditures by them made in such detail as the Finance Committee may require.

## REPORT ON PLANNING BOARD

---

It appeared to your committee that the three major subjects calling for planning action are the schools, the roads and finances.

Last year the town accepted a rather comprehensive plan for our roads, which seems to be working out very well.

If you adopt the article in this year's Warrant calling for the creation of a Finance Committee that should take care of all financial planning.

It is probable that a new study of our school problems should be made—if so it is the opinion of your committee that such a study committee should contain in its membership the School Board. This type of committee could handle any planning becoming necessary in our school departments.

While it is true there are a number of matters upon which an active planning board could profitably work, such as beautification, zoning, river pollution, etc., it seems to the committee that there would not be enough of such projects to warrant establishing a permanent planning board.

However, your committee takes no position for or against the forming of such a committee.

Signed :

LOGAN DICKIE  
WILLIAM MASON  
FRED CANN

## SCHOOL WARRANT

---

To the Inhabitants of the School District in the Town of New Boston qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 6th day of March, 1953 at 7:30 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see if the School District will vote to appoint a Study Committee composed of the School Board and four citizens at-large to study all educational developments possible in the fore-seeable future and to submit a report in writing at the 1954 meeting.

(By Petition)

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

*To the Citizens of New Boston:*

I hereby submit my annual report as superintendent of the schools of New Boston.

### TEACHING STAFF

We had several changes in our teaching personnel during the summer months Mr. Aliapoulios accepted a position in Manchester Central High School, and Mr. Andrews took over the principalship of the high school in addition to his previous work as instructor of Vocational Agriculture.

Miss Margaret Larkin decided to make a change, and her position in English and Social Studies was filled by Mr. Andrew Thompson, a recent graduate of St. Anselm's. Mr. George Ansley, a graduate of Goddard College, was assigned the science and mathematics program previously handled by Mr. Aliapoulios.

During the present year we had one change on our staff. Mrs. Marilyn Greeley asked to be released from her contract as of December 20th. Such request was granted, and the School Board authorized the employment of Mrs. Elizabeth P. Straw of Weare. Mrs. Straw, a graduate of Keene Teachers' College, has had five years' experience in the schools of Goffstown and Weare.

### ENROLLMENT

Our present total enrollment in grades 1 thru 12 is approximately the same as at this time a year ago. Our average daily membership last year was 195, or a total number of different pupils during the year of 211. Our present figure is 199.

In looking ahead to the next three or four years, may I call your attention to the following projected enrollments, based on our school census figures of last fall,—

	1952-53	1953-54	1954-55	1955-56
Grades 1-6	132	127	137	141
Grades 7-8	31	47	54	44
Grades 9-12	36	41	49	64
	<hr/> 199	<hr/> 215	<hr/> 240	<hr/> 249

This coming school year will not present a critical problem, although the enrollment figures indicate that we will have to reduce by one the number of teachers now covering grades 1-6, and add that teacher to grades 7 and 8. Such an arrangement will undoubtedly mean splitting one grade, and having a large combination grade as well. The situation will not be ideal, but it is the only possible arrangement other than providing another classroom and adding another teacher to our staff.

The following year, 1954-55, we will have a more serious problem. A first grade of 35 is anticipated and a total increase in all grades of 35. This situation demands a new classroom area if we are to care for the number of pupils expected.

#### 1953-54 WARRANT

In connection with the above enrollment problem your school board was requested to include in the 1953 warrant an article to see if the district will create a committee to work with the School Board during the next twelve-month period in studying the future educational needs of New Boston.

Your School Board has also added three other special articles. One is concerned with adopting a plan for yearly improvements to the main building over a period of three to five years. The School Board feels that considerable work should be done on our classroom floors, our lighting and our toilet facilities.

A second article is concerned with a deficiency in this year's appropriation. You will recall that the Board's budget for the current school year was reduced by \$2,000 at the annual meeting of 1952. The School Board was able to reduce its expenses by \$1,000, due mainly to a shift in our teaching staff. However, we also received less income from high school tuitions than

the figure carried in our budget, and also a lesser amount from State Aid. The reduction of these last two items amounted to \$1,350. At the present time it appears that the deficiency will approximate \$1,800,00, but a more accurate figure will be available at the annual meeting.

Respectfully submitted,

LEWIS F. FOOTE,  
*Superintendent of Schools.*

## SCHOOL HEALTH REPORT 1951-1952

---

At the beginning of the school year in September, 1951, all pupils were examined by Dr. Fraser. The following defects were found:

Diseased tonsils	11
Number corrected	6
Dental care needed	110
Number corrected	52

At the present time three children are attending the Orthopedic clinic in Manchester every six months.

All pupils were given a vision and hearing test.

Defective vision	10
Number corrected	6
Defective hearing	1
Number corrected	0

During the school year seventy pupils received the patch test. Twenty-two had chest X-Rays and one attended Dr. Kerr's clinic.

All children in grades one through six had their teeth cleaned and four applications of flourine applied. This treatment was given by Mrs. Dorothy Powers, State Dental Hygienist.

A program has been started in the first grade which we hope in time will help cut down dental decay. The children have been taught the correct method of tooth brushing and how to make their own tooth powder. After lunch each day the children brush their teeth.

Last year in June we had registration day for all children entering school in September. The children were registered by the first grade teacher, weighed, measured, given a vision and hearing test by the school nurse. At noon the children had lunch at the town hall. In the afternoon the children were taken to the Pre-School clinic, held at the church, and given a physical examination by the attending physician.

Any child needing to be vaccinated or immunized at this time could have it done. A dental hygienist was also present to examine the children's teeth.

During the year there were:

2 fractures	10 first aids
1 case measles	19 home visits
1 case German measles	5 received booster shots
4 cases ringworm	

Respectfully submitted,

BEATRICE BOCKUS, R. N.
